

Your HyaPenPro lip filler course

If you're an esthetician, beauty therapist, nurse or simply have an interest in beauty and want to earn extra income, HyaPenPro can help you improve your profit margins. With a world-class, fully accredited training programme, our lip filler training course is an excellent way to diversify and offer non-invasive, safe and natural-looking lip fillers.

What to expect on the first day of your lip filler training

After you've received and read over your pre-course reading materials, you're one step closer to becoming a HyaPenPro technician! On the first day of your lip filler course you'll receive an introduction to the HyaPenPro, hyaluronic acid device and then you can expect some of the following:

- Receive an introduction off your dedicated HyaPenPro trainer
- Get to know your fellow peers on the lip filler course
- Introduction to the HyaPenPro lip filler and its five variable pressure settings
- Individual 1-1 tutoring on how to effectively administer hyaluronic acid
- Group tutoring taking you step-by-step through the dynamics of the lip filler device
- Experience our hot seating training model to receive an in-depth understanding of how to use the device

What you will learn

Each HyaPenPro lip filler training course will differ depending on the trainer and amount of HyaPenPro students. But you will definitely cover all of the following and more!

- Anatomy and physiology training
- How to avoid any adverse reactions and understand the pharmacy support available
- Be able to effectively administer HyaPenPro hyaluronic acid lip fillers
- An understanding of tailoring lip filler treatment to your clients' lips and their desired look
- Thorough understanding of the HyaPenPro settings
- You'll gain hands-on experience getting to grips administering lip filler treatment
- The benefits of biorevitalizants and meso-cocktails
- The importance of hygiene and hygienic best practice

The benefits you'll receive from completing the course

On completion of your HyaPenPro lip filler course, you will receive a certificate to prove that you are a fully certified HyaPenPro technician and will be able to perform next generation, hyaluronic acid lip fillers for all your clients.

HyaPenPro is the safest and most effective lip filler treatment that works by naturally enhancing the volume of the lip. Which means you'll be able to attract a whole new clientele to your salon or business and receive a whole host of other benefits too.

Benefits for both you and your clients from completing HyaPenPro lip filler course

Benefits for trainers:

- Attract a whole new clientele with the HyaPenPro – an alternative to painful, injectable lip fillers
- Receive an additional revenue stream from offering a brand new treatment
- You'll be seen as a forward-focused business who's at the forefront of delivering new treatments to its clients
- You'll receive ongoing support from the pharmacy world

Benefits for your clients:

- Naturally looking skin and lips that are plumped to their own desired look
- Receive a safe, pain-free treatment with no social downtimes
- Receive a hygienic treatment with no adverse reactions

Why a lip filler course will improve your profit margins

Many clients can be put off by injectable hyaluronic acid lip fillers (HA). However, the HyaPenPro lip filler dispenses hyaluronic acid under the skin less than half the length of an injectable.

By taking the HyaPenPro's lip filler course, you'll receive help and support to make sure you reap the maximum benefits from your new lip filler course

You'll also receive help and support from HyaPenPro in the following areas:

- Marketing material and support
- Receive access to your own pharmacy account to keep up to date with HyPerPro best practice guidelines
- ICT and legal support

On behalf of Louise Walsh International, we hope that you enjoy your lip filler course and we can't wait for you to join our ever-expanding global team of approved HyaPenPro technicians!
